

Please reject the NAB's petition 04-160. XM should continue to give XM Instant traffic & weather. A large amount of my time, is spent traveling. Being able to have the traffic and weather at my fingertips has allowed me to avoid potentially dangerous areas. When you are not from a particular area in the states, it difficult to know which readio station gives the coverage and/or when. Without this information on XM, I can spend more time flipping through the local radio stations then keeping my eyes on the road. XM is there for me when I need it when ever I need it. Even though I pay for this service, it has saved me more money becuase I'm not paying for traffic accidents, tow trucks, I'm safer by trying to avoid areas of bad weater. floods where I might be swept off the road. Becuase of all these reasons I urge you to reject the NAB's petition 04-160. Thank you.
